

Before and after care for your Spray Tan

Before:

- Preferably do not shave your legs 2 days prior to your tan
- Exfoliate your body the night before or day of
- Do not moisturize the day of
- Come without make-up
- Wear or bring loose dark clothing to wear after your tan

After:

- Wear loose dark clothing after
- Wait 8 hours to rinse, no soap. DHA is clear and can take up to 24 hrs. to fully develop. During this time it is important to refrain from moisture build up on the skin (ex.sweating, rain, swimming, showering, massage and pedicures.)
- The product that is applied contains cosmetic bronzer and WILL WASH OFF during your first shower.
- Use a sulfate free body wash. Soaps and other body washes will strip away tan faster.
- With proper care your tan will last 5-7 days
- Moisturize often to be sure your tan will fade evenly
